

An international journal of physiology produced jointly by the International Union of Physiological Sciences and the American Physiological Society

Editor-in-Chief Walter Boron, Cleveland, OH
Associate Editors Michael Caplan, New Haven, CT
 Ulrich Pohl, Munich, Germany
Special Advisor, Emeritus Gerhard Giebisch, New Haven, CT

Consulting Editors

Francisco Bezanilla, Chicago, IL
 Hannah Carey, Madison, WI
 Hsiao Chang Chan, Hong Kong, China
 Graham Dockray, Liverpool, UK
 Anne Eichmann, Paris, France
 Sten Grillner, Stockholm, Sweden
 D. Graham Hardie, Dundee, UK
 Donald Hilgemann, Dallas, TX
 Reinhard Jahn, Göttingen, Germany
 Baruch Kanner, Jerusalem, Israel
 Julie Kauer, Providence, RI
 Amira Klip, Toronto, Canada
 Litsa Kranias, Cincinnati, OH
 Richard S. Lewis, Stanford, CA
 Jennifer Lippincott-Schwartz, Bethesda, MD
 José Lopez-Barneo, Seville, Spain
 Heini Murer, Zurich, Switzerland
 Ole Petersen, Liverpool, UK
 Tullio Pozzan, Padua, Italy
 Jenny Stow, Queensland, Australia

Editorial Coordinator

Charleen M. Bertolini

APS Publications Office

R. Scheman, Director of Publications
 S. Boyer, Journal Copy Editor

Art Direction, Penumbra Design, Inc.

Kelly Paralís Keenan, Art Development/Editing and Illustration

IUPS/APS Joint Managing Board

K. E. Barrett, Chair
 Akimichi Kaneko
 Ewa Szczepanska-Sadowska
 Malcolm Gordon, IUPS Treasurer

Physiology (ISSN 1548-9213; EISSN 1548-9221) is published bi-monthly (one volume per year) by the International Union of Physiological Sciences and the American Physiological Society. Subscription Price (U.S. dollars): Institutional print only, \$275 U.S., \$285 Canada and Mexico, \$285 elsewhere; institutional print and online, \$295 U.S., \$305 Canada and Mexico, \$305 elsewhere; institutional online only, \$235; nonmember individual print only, \$190 U.S., \$200 Canada and Mexico, \$200 elsewhere; nonmember individual print and online, \$210 U.S., \$220 Canada and Mexico, \$220 elsewhere; nonmember individual online only, \$155; members of IUPS-affiliated societies print and online, \$80.00, postpaid. Subscriptions are accepted on a calendar year basis only. Single Copies, Back Issues: when available \$25 each subscriber, \$50 each nonsubscriber, postpaid. Subscriptions are accepted on a calendar year basis only. Single Copies, Back Issues: when available \$25 each subscriber, \$50 each nonsubscriber, postpaid. REVIEWS

The Role of Kisspeptin Signaling in Reproduction 207
 Xavier d'Anglemont de Tassigny and William Henry Colledge
 Kisspeptins are important central regulators of the mammalian reproductive axis that integrate GnRH release with a variety of physiological signals.

Pathways for Cytokine Secretion 218
 Amanda C. Stanley and Paige Lacy
 The release of cytokines from cells is regulated by a remarkably diverse series of membrane trafficking pathways, as shown by recent studies in immune cells.

The Role of Endocannabinoid Signaling in Motor Control 230
 A. El Manira and A. Kyriakatos
 Review of the role of endocannabinoid signaling in different parts of the vertebrate motor system from networks responsible for the execution of movement to planning centers in the basal ganglia and cortex.

Epithelial Pathways in Choroid Plexus Electrolyte Transport 239
 Helle H. Damkier, Peter D. Brown, and Jeppe Praetorius
 This review describes the highly atypical expression and organization of solute transporters in the secretory choroid plexus epithelium.

A Gene for Speed: The Emerging Role of α -Actinin-3 in Muscle Metabolism 250
 Yemima Berman and Kathryn N. North
 The α -actinin-3 gene, ACTN3, has been dubbed the "speed gene" due to its importance in human sprint and power performance. Ongoing examination of a mouse model of α -actinin-3 deficiency is yielding important insights into the role of this common human variant on muscle metabolism.

On the cover: Endocannabinoids act as a buffer of the excitability within circuits for motor behavior. (see El Manira and Kyriakatos, p. 230).
